

Sultana Jahan Tahmina | Frontend-Focused Full Stack Web Developer

Chattogram, Bangladesh | Open for Remote Work

[Portfolio](#) | [LinkedIn](#) | [GitHub](#) | sultanajahantahmina19@gmail.com |

Professional Summary

Full Stack Web Developer experienced in building responsive and scalable web applications using React, Next.js, Node.js, PHP, and databases like MongoDB and PostgreSQL. Skilled in REST APIs, authentication systems (JWT), and full-stack CRUD applications. Passionate about backend architecture, system design, and user-focused frontend development. Seeking remote software engineering opportunities.

Technical Skills

- **Frontend:** React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux
- **Backend:** Node.js, Express.js, PHP, Socket.IO
- **Database:** MongoDB, MySQL, PostgreSQL
- **Tools & Platforms:** Git, GitHub, Vercel, REST APIs
- **Core Skills:** Full Stack Development, Authentication (JWT), Responsive Design, API Integration, CRUD Systems

Professional Experience

Full-Stack Web Developer (Contract)

Raiyan Engineering BD | April 2026 - May 2026

[View Project](#) [GitHub Link](#)

- Developed and deployed a full-stack engineering services platform using Next.js and MongoDB
- Built 10+ dynamic content sections with reusable React components
- Improved UI responsiveness across multiple screen sizes (mobile-first optimization)
- Enhanced code maintainability through component-based architecture scalability.

Entry-Level MERN Stack Developer (Intern)

Rise Together BD | Dec 2025 – Jan 2026

- Contributed to planning and development of MERN-based application modules
- Worked on Office & Business and Library feature sections
- Collaborated using Notion and Draw.io for task planning and system design
- Continued independent development for learning and skill improvement

Key Projects

Student Resource System | HTML, CSS, JavaScript, PHP, MySQL, Socket.IO

[Visit Website](#) [GitHub Link](#)

- Built a multi-role platform with Student, Teacher, and Admin dashboards
- Implemented authentication system and role-based access control (RBAC)
- Developed CRUD operations for resource sharing and management
- Enabled real-time communication using Socket.IO
- Designed fully responsive UI for desktop and mobile users

MOZITO25 – Gaming Platform | React, Git, Responsive UI

[Visit Website](#) [GitHub Link](#)

- Built a responsive gaming platform with interactive games (Snake, Tic-Tac-Toe)
- Developed 15+ reusable components for scalable UI architecture
- Ensured smooth UX with responsive design and optimized performance

Education

- **B.Sc. in Computer & Communication Engineering**
International Islamic University Chittagong | 2024 – Present
- **Relevant Coursework:** DSA, OOP (Java), Web Programming, Database Systems, Competitive Programming

Soft Skills

Team Collaboration | Communication | Problem Solving | Time Management
